

Name: _____

1 | In the circle above, paint a colour that you feel represents your family.

Value is the lightness or darkness in a colour. Sometimes the word tone is used to refer to value.

A **tint** is when white is added to any colour making it lighter.

A **shade** is when black is added to any colour making it darker.

2 | In the above row, paint the middle rectangles the same colour painted in your circle – your family colour.

3 | Using white, mix your family colour to create two different tints lighter than your family colour.

4 | Using black, mix your family colour to create two different shades darker than your family colour.
